EJERCICIOS:

Make your Halloween party

For the activity we will work with the students about decoration, the songs, and the food that we use in Halloween.

After that we will watch another video that has crafts that will help the student to create their own Halloween party.

<https://www.youtube.com/watch?v=ADM8ybAXATw> (since the video is long, only a few fragments of the video will be shown).

Finally, the students will start doing a list of the things they will need and then create the decoration for their parties
