In response to the preexisting condition of volatility and the forthcoming infusion of Trumpredictability, the world is preparing "go bags" for the year(s) ahead. Five winners will get a full set of Mooch Minnows, Pig Sticks, Hedgehogs, Janitors, and the new 2.5-inch Mayors. MEXICO CITY -- Authorities in Mexico said Tuesday that a total of 17 children have died in central Mexico from suspected contamination of IV feeding bags after four more deaths were confirmed. According to Iowa State University Extension specialists, cornstalks should be baled within four weeks of corn harvest to realize their full feeding potential. But for those who did hop out of the combine and into the baler with the intention of feeding cornstalks to cattle, there are ways to maximize the feed value and utilization of those bales this winter. After Trump's tariff threats, Canadian Prime Minister Justin Trudeau flew immediately to Mar-a-Lago to assess the damage. In response to the preexisting condition of volatility and the forthcoming infusion of Trumpredictability, the world is preparing "go bags" for the year(s) ahead. For both global political leaders and private sector firms, this preparation involves kicking the tires on current strategy, stress testing supply chains and sourcing, evaluating budget plans, and checking in with the man himself. Five winners will get a full set of Mooch Minnows, Pig Sticks, Hedgehogs, Janitors, and the new 2.5-inch Mayors. MEXICO CITY -- Authorities in Mexico said Tuesday that a total of 17 children have died in central Mexico from suspected contamination of IV feeding bags after four more deaths were confirmed. According to Iowa State University Extension specialists, cornstalks should be baled within four weeks of corn harvest to realize their full feeding potential. Given the timely row-crop harvest reported throughout the Midwest, that window of optimal baling opportunity is likely narrowing, if it hasn't already come to a close. But for those who did hop out of the combine and into the baler with the intention of feeding cornstalks to cattle, there are ways to maximize the feed value and utilization of those bales this winter. After Trump's tariff threats, Canadian Prime Minister Justin Trudeau flew immediately to Mar-a-Lago to assess the damage.
