Vitesse Backpack"This bag is a work of art, made of beautiful waxed canvas from an American mill that has produced it this way for nearly a century." Even though these “interim” or “like for like” replacements will eventually need to be replaced as well, you should still have this repair performed if it is offered to you. This is because an older air bag is more likely to explode than a newer version of the same air bag. Replacing the older air bag with a newer version reduces the safety risk in your vehicle until a final replacement air bag can be produced and installed. All owners who receive an interim replacement air bag will still be provided a free, final repair and should be sure to have that done as well. The Hermès Constance is a versatile bag worn comfortably over the shoulder and secured with the simple and functional “H” clasp. This Hermès bag’s designer, Catherine Chaillet, was pregnant whilst designing the bag, eventually naming it after her daughter, Constance. Personal items and snacks up front, and tools in the back—no more digging around to find what I need. I also like that I can switch the saddle roll from bike to bike. Coyote color goes with just about anything and it's a good value IMO. Overall, I highly recommend getting this bag to other bikers, or even just people who need a new bag. I felt great buying from a small business hat catered to my needs rather than some big company that has sweatshops or something. **EJERCICIOS:**
