Entrepreneurs are GREAT

I think that an entrepreneur needs to be ambitious, hard-working and be able to think outside the box, and, of course, he should be a risk taker. Because of that I don't want to have my own business, it will take a lot of my free time, it will be very stressful and like most women I can't make right decisions under pressure.

And we shouldn't admire business people, because other professions are great too (doctors, teachers, engineers, etc.).
