Nature Is Life

Lesson 1 >> The world Around us

① Read the clues to complete the crossword clues

- ① water you can't drink because it's salty
- ② Large area of salt water
- ③ place where a river begins
- ④ A large body of salt or fresh water surrounded by land
- ⑤ water that's not salty
- ⑥ frozen water in the shape of white flakes
- ⑦ Natural flow of water of considerable length that crosses land and ends in the sea or ocean

2 Read the following text. Underline the facts and circle the opinions.

Have you ever seen a snow-covered mountain? Well, this is quite easy to do in Colombia, but, according to recent studies, many snow-covered mountains will disappear in the next 30 years. The reason is global warming. Glaciers in these mountains are melting because the temperature has risen in the last decades. But, do you know why these mountains are important for us? Besides being beautiful and sacred, snow-covered mountains are water regulators. This is very important for the water cycle. The presence of snow guarantees we have water in our rivers. At the same time, snow reflects sunlight back to the atmosphere reducing warming effects on the planet. Snow-covered mountains are excellent indicators of climate change. If the atmosphere is cool, snow is present. On the contrary, if the atmosphere's temperature rises, snow melts. Some good news, at least for the Sierra Nevada de Santa Marta, came with Hurricane Matthew. The heavy rains and humidity created the perfect conditions to help the Sierra become white again. Let's hope this continues!

3 Answer the questions

① what may happen to the snow in the next three decades?

It may disappear

② what factor has contributed to the loss of snow in these mountains?
global warming

③ why are snow-covered mountains important?

why are they water regulators

④ Has the Sierra nevada de Santamarta permanently recoverd its snow?

Yeah thanks to a hurricane named Matthew

⑤ Have you ever seen a snow-covered mountain? which one?

well this is quite easy to do Colombia, but, according studies, many snow-covered mountains will disappear in the next 30 years

Lesson 22 Our Natural Resources

① Complete the table with words from the word Bank

Renewable resources	Non-renewable resources
Sunlight	animals
Water	petroleum
Plants	minerals
wind	Coal
	gas
	Fossil fuels

word Bank

animals Coal gas
 minerals Fossil fuels
 petroleum plants
 Sunlight water wind

② Read the text and answer the questions.
Write Full sentences

The planet is being polluted by the overuse of fossil fuels leading to what is called the greenhouse effect. This is causing global warming, so many people believe that we should be using renewable resources more often to help save the planet. Eco-friendly construction is an example of this. These 'green' buildings use renewable resources like wind and sunlight. They have solar panels to heat water and use different construction methods to make good use of the wind and sun. For example, the location of a window can contribute to a more efficient use of solar energy during the day or can take advantage of the wind to cool down the house.

1 Have you visited an - eco friendly construction where?

Yes, in a building

2 Have you seen a solar panel? where?

Yes, in a house where there were solar panels to save light

3 Does your Community use any renewable resources? Which one?

they use different Construction methods to make good use of the sun

4 according to the text eco-Friendly is a synonym of ecological Construction

5 Have you seen examples of fossil fuels polluting the environment? ^{where? & what?}

I have not seen examples

Lesson 3) What Are we Doing to our world?

1 Match the environmental problems 1-5 with the definitions A-E

1. erosion B

2 water scarcity C

3 deforestation E

4 global warming D

5 pollution A

A Introduction of toxic substances into the environment

B Soil loss because of wind and water

C When there is not enough water to cover basic need in a region

E The action of systematically cutting down trees to use the land for agriculture

D A rise in the average temperature of Earth's atmosphere

2 Complete the first part of the text with the correct form of the verbs

My department, Guaviara is an environmentally affected region. We ¹have had [have] many problems since the coal mining operations ²begin for many years now, we ²be suffered [suffered] from a scarcity of water as this is a desert region. However, everything ³has come [become] worse since the mining industry started to use the rivers for its operations. Besides the water problems the air is now polluted with fine particles of coal which ⁴has he make [make] people ill. Deforestation ⁵has become [become] another environmental problem. As the coal mine needed to expand its activities, more land was required and to do this, native vegetation ⁶has been [be] removed. Of course, this ⁷has contributed [contribute] to the water and soil erosion problem. In addition,

The Department of Guaitral is very windy,
so this causes more soil erosion, especially
on the coast

3. Read the second part of the text. Choose the correct option to give advice.

For these reasons, we are asking the President of the Republic to help us in several ways. First, the coal mine ¹should / ~~shouldn't~~ interfere with the rivers. Second, the mining company ²must / ~~can~~ put a stop to deforestation. Third, the mine ³mustn't / ~~must~~ continue polluting the air and water, so they ~~mustn't~~ / must follow the correct environmental procedures. And finally, the Government ~~should~~ / can have a plan for extreme climate conditions.

Choose the Correct option

1 Frozen water is called in the form of white flakes

a Salt water

c Ice

b Fresh water

~~x~~ Snow

2 A place where a river starts

a Ocean

~~x~~ Source

b Sea

d mountain

3 A body of water surrounded by land is called a/an

~~x~~ lake

b Ocean

c Sea

d river

4 water which you can drink

~~a~~ salt water ~~b~~ Fresh water

5 which one is NOT a renewable resource

~~a~~ Sunlight ~~b~~ Coal c wind d water

6 which one is NOT a non-renewable resource

~~a~~ petrol b gas c coal ~~d~~ wind

7. Governments of the world must put a stop to pollution now

~~a~~ must c will

b can't d shouldn't

8 We must conserve water in many ways at our homes

~~a~~ must b may c can't d shouldn't

9 Have you seen a snow-covered mountain?

~~a~~ see b seen c saw d seeing

70. Did the world climate changed in the last decades?

a Have b Has c Does ~~d Did~~

		Very well	Quite well	With difficulty
Vocabulary	I can identify vocabulary related to natural resources like water and its uses.	☒		
Grammar	I can use modals to give advice. I can use have + participle to talk about everyday activities.	☒		
Reading	I can understand short texts about natural resources.	☒		
Writing	I can write short paragraphs about natural resources. I can write some advice.	☒		
Listening	I can identify information in short conversations about natural resources.	☒		
Speaking	I can give advice about the proper use of natural resources.	☒
