

Exer Uses: Conservation is A MUST, Let's prevent water pollution, we must save Energy, chant

Conservation is a Must

Lesson 1) A place For everything

1 Complete the table with the words from the box some words can go in more than one column.

Cans of fizzy drinks Cans of food Cardboard boxes
clothes glass containers milk cartons
old notebooks packaging of items plastic bottles

Which Items can you...?		
Recycle	Reuse	Reduce
plastic bottles	plastic bottles	Packaging items
Cans of fizzy drinks	Cans of fizzy drinks	
Cans of food	Cans of food	
clothes	Clothes	
glass Containers	glass Containers	
milk cartons		
old notebooks		

2. How can we care for the environment? Use the words from exercise 1 to write recommendations. Write affirmative and negative sentences.

1. We shouldn't buy too many things
2. We should try to recycle all packaging
3. We should throw away the cardboard boxes
4. We should reuse our garbage if it is organic
5. We should reduce the cans of food
6. We shouldn't throw milk cartons
7. We should reuse milk cartons
8. We shouldn't buy so many notebooks to avoid the felling of trees

3. Be creative! How can you reuse different everyday items?

1. I can knit plastic bags to make placemats
2. I can make flower pots with colored lids
3. I can make lanterns with bottles
4. I can make a pencil with rolls of paper
5. I can make sculpture with recycling

Lesson 2 >> Let's prevent water pollution!

1 Fact or fiction? Tick the fact about water ☒

1. Only 2.5% of water in the world is fresh water ☒

2. Water is delicious ☐

3. Most fresh water is in glaciers and snowfields ☒

4. Less than 1% of Freshwater is available for human consumption ☒

5. Bottled water is healthier ☐

2. Make Strong Recommendations using must or mustn't
To Save Water:

1. We must use low-flush toilets

2. We mustn't use lots of detergent in the washing machine

3. We mustn't let the water run when we brush our teeth

4. People must take quick showers

5. People must start to recycle all the water they can

6. We mustn't throw oily water down the sink

7. People must try to use eco friendly cleaning products

8. People mustn't flush tissues down the toilet

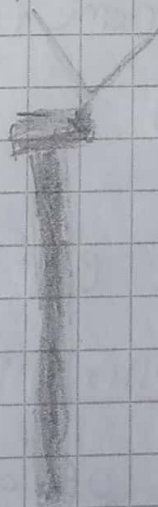

Lesson 3 >> We Must Save Energy

1. Look at the pictures and complete the word about energy

ELECTRICITY

②

WIND POWER

③

SOLAR ENERGY

BATTERIES

5

WATER POWER

Geothermal energy transforms heat into electricity. This energy comes from the heat from the Earth. This kind of energy creates hot springs in places like Duitama, Boyacá, where people go to take natural baths of warm mineral water. This type of energy is sustainable and environmentally friendly, however, it is limited to certain places that have specific natural characteristics to build a geothermal power station. The main use for this energy is related to heating, including home heating systems, spas, industrial and agricultural processes and for desalination plants, where salt water is turned into freshwater.

② Read the text and answer the questions

1. Where does geothermal energy come from?

It comes from the Earth

2. Does this energy pollute the environment?

It is friendly with the environment

3. What is one disadvantage of geothermal energy?

As it is limited to certain places that have specific natural characteristics to build a geothermal power station

4. Name four uses of geothermal energy

heating including home heating systems, spas, industrial and agricultural processes and desalination plants.

3 Imagine you are giving recommendations to someone who wants to build an environmentally-friendly home. Complete the table. We should must and can

Water	You must find a way to recycle water
Electricity For appliances and light bulbs	turn off the appliances and light bulbs so as not to waste energy when leaving the house
Heating system	disconnect it
Bathroom options	not stay as long in the shower and save water
Organic rubbish treatment	always separate it for a good treatment
Inorganic rubbish treatment	separate it so as not to contaminate

The environment rap

Mother nature we must protect,
And treat our world with respect.
R-E-S-P-E-C-T
Do the environment rap with me.

Animals are endangered,
We must treat them with respect.
They need looking after,
Or there won't be many left!

Dolphins and whales like to swim.
Lizards and frogs have scaly skin.
Bears have fur and birds have feathers,
Let's do the environment rap together.

Mother nature we must protect ...

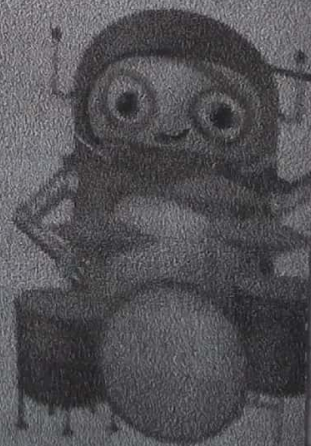

Reduce your time in the shower,
To save some water for a flower!
Wash your dishes and clean your clothes,
But just remember how plants grow!

To keep our world fantastic,
We must recycle plastic:
Fossils fuels are running out,
It's something we must think about!

Mother nature we must protect, ...

Animals are endangered,
We must treat them with respect.
They need looking after,
Or there won't be many left!

We must stop deforestation
To help prevent this situation!
Forests, jungles and mountain ranges
Need our help with climate changes.

what rhymes with climate
changes

Speaking

mountain ranges

1 say the rhyming words with a partner

1 climate changes

4 Shower

2 respect ✓

5 Swim

3 Feathers ✓

6 Fantastic ✓

The words that rhyme are fantastic with plastic!
bear have birds feathers on their skin, respect

Writing

2 List the animals and places from the rap

animals	OR	Place
Dolphins Frogs		Forest Jungles
whales Bears		
lizards birds		Shower mountain ranges

Reading

3 Look at the chant. Fill in the missing instructions

1 clean your clothes

5 about Fass!
Fuels running out

2 treat animals with respect

6 protect mother nature

3 stop deforestation

7 reduce your time
in the shower

4 Do the environment rap

- 8 wash your dishes
- 9 Remember how plants grow
- 10 Recycle plastic.

Speaking

4 Use the phrases to make true and false sentences about protecting the environment, your partner says if they are true or false

- | | |
|--------------------------------|------------------------------|
| 1 Use more plastic | 6 Use more fossil fuels |
| 2 Stop deforestation | 7 Look after animals |
| 3 Waste water | 8 protect endangered animals |
| 4 Treat our world with respect | 9 Use less fossil fuels |
| 5 Recycle plastic | 10 Endanger animals |

We should → deberíamos

We must → debemos

We mustn't → no debemos

We shouldn't → no deberíamos

We should use more plastic

That's false. We should recycle plastic

- 1 We must stop deforestation → it's true
- 2 mustn't waste water → it's true we must save water
- 3 we should treat our world with respect → it's true
- 4 we must recycle plastic → it's true we must always recycle plastic helps the environment
- 5 we should use more fossil fuels → that's false doesn't help the environment
- 6 we must look after animals → it's true we must always do it
- 7 we must protect endangered animals → it's true
- 8 we should use less fossil fuels → it's true to help the planet
- 9 we must protect endangered animals → it's true let's save them
