

Relación de orden en el conjunto de números enteros

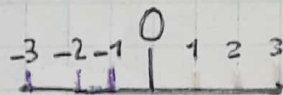

Represente cada pareja de números enteros en la recta numérica y escriba $>$ o $<$, según cada caso.

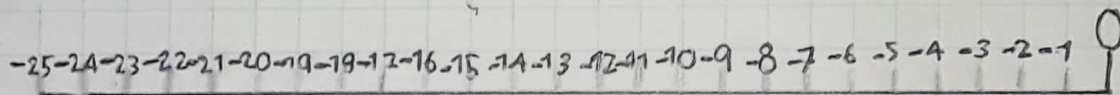

1. $10 < -6$

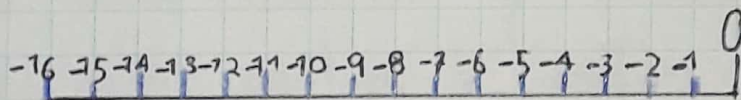

2. $1 < -15$

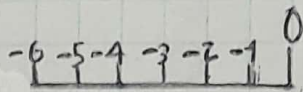

3. $3 < -3$

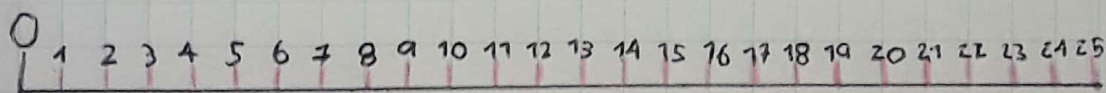

4. $-12 < -23$

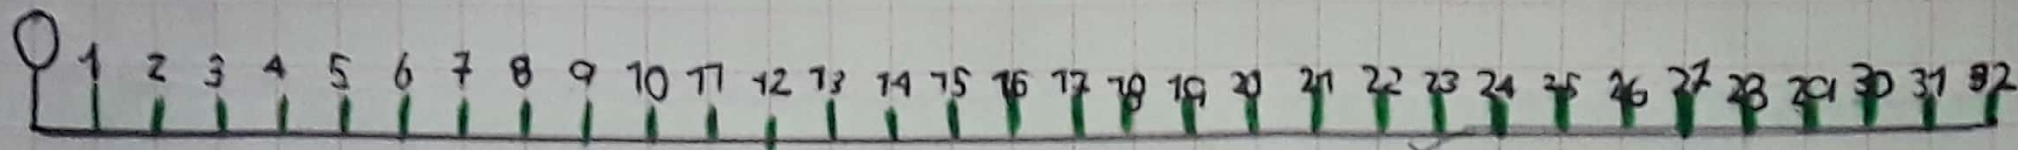

5. $-16 > -11$

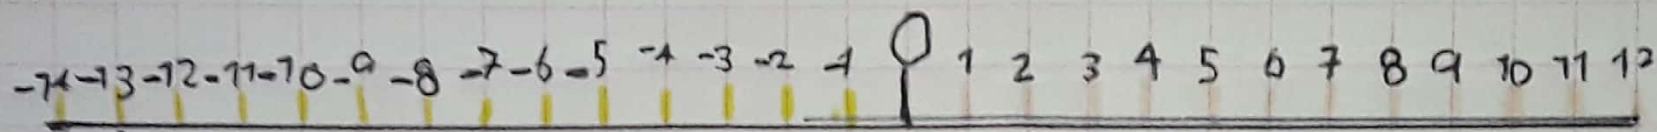

6. $0 < -6$

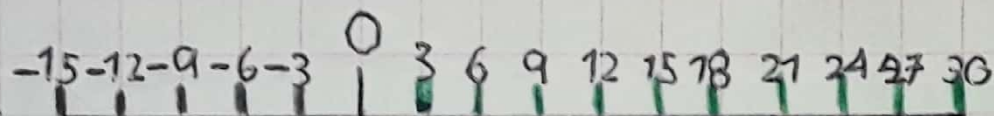

7.1 > 25

8.21 > 32

9.12 < -14

10.30 < -15

Concepto de mayor: Número que está localizado a la derecha de otro es mayor.
