

WATER IS LIFE

The exercises solved

Propos. 10

Students will be able to write about human resources especially the importance of water in our life

Explicacion

Read carefully this information.

Cause and effect are about how one thing can cause something else to happen.
The cause is why something happened.
The effect is what happened.

CAUSE → EFFECT EFFECT → CAUSE

- | | |
|--|---|
| • She made one big mistake, as a result she lost her job | • She was very tired as a result of working 10 hrs |
| • Mary studied hard for the chemistry exam. Therefore, she got an A+ | • My father hasn't slept in 4 days due to his illness |
| • It rained heavily, consequently the football game was called off | • They cannot go to cinema because it is too late |

- | | |
|--|---|
| <ul style="list-style-type: none"> • It is too late so that we cannot go to cinema • He didn't complain to the police, according to the police too no action | <ul style="list-style-type: none"> • My success was largely due to luck • They have had to postpone the meeting owing to the strike |
|--|---|

as a result = Como resultado

Therefore = Por lo tanto

Consequently = Como consecuencia

So that = así que eso

accordingly = respectivamente

as a result of = Como resultado de

due to = ~~debido~~ a Porque

because = Porque

owing to = debido a

Due to = ~~debido~~ a Porque

1 Water in the oceans and rivers is heated by the sun

A Condensation

B Evaporation

C Precipitation

2 Water vapor begins to cool as it rises into the air

A Condensation

B Evaporation

C Precipitation

3 Particles of water in a cloud gather to form drops heavy enough to fall to earth

A Condensation

B Evaporation

C Precipitation

5 Here is a cause: Heat is added to water, What is the effect?

R/= When heat is added to water, the water evaporates, turning from liquid into gas

6 Here is a cause: Heat is taken away from ice. What is the effect?

R/= When heat is taken away from water, the water freezes, turning from liquid to solid
