

# Let's think and analyze

Share your ideas in class

**Have you been infected  
by covid 19?**

# Watch the next video

Take notes about your ideas  
from the video

# Take notes using this chart:

Main topic:

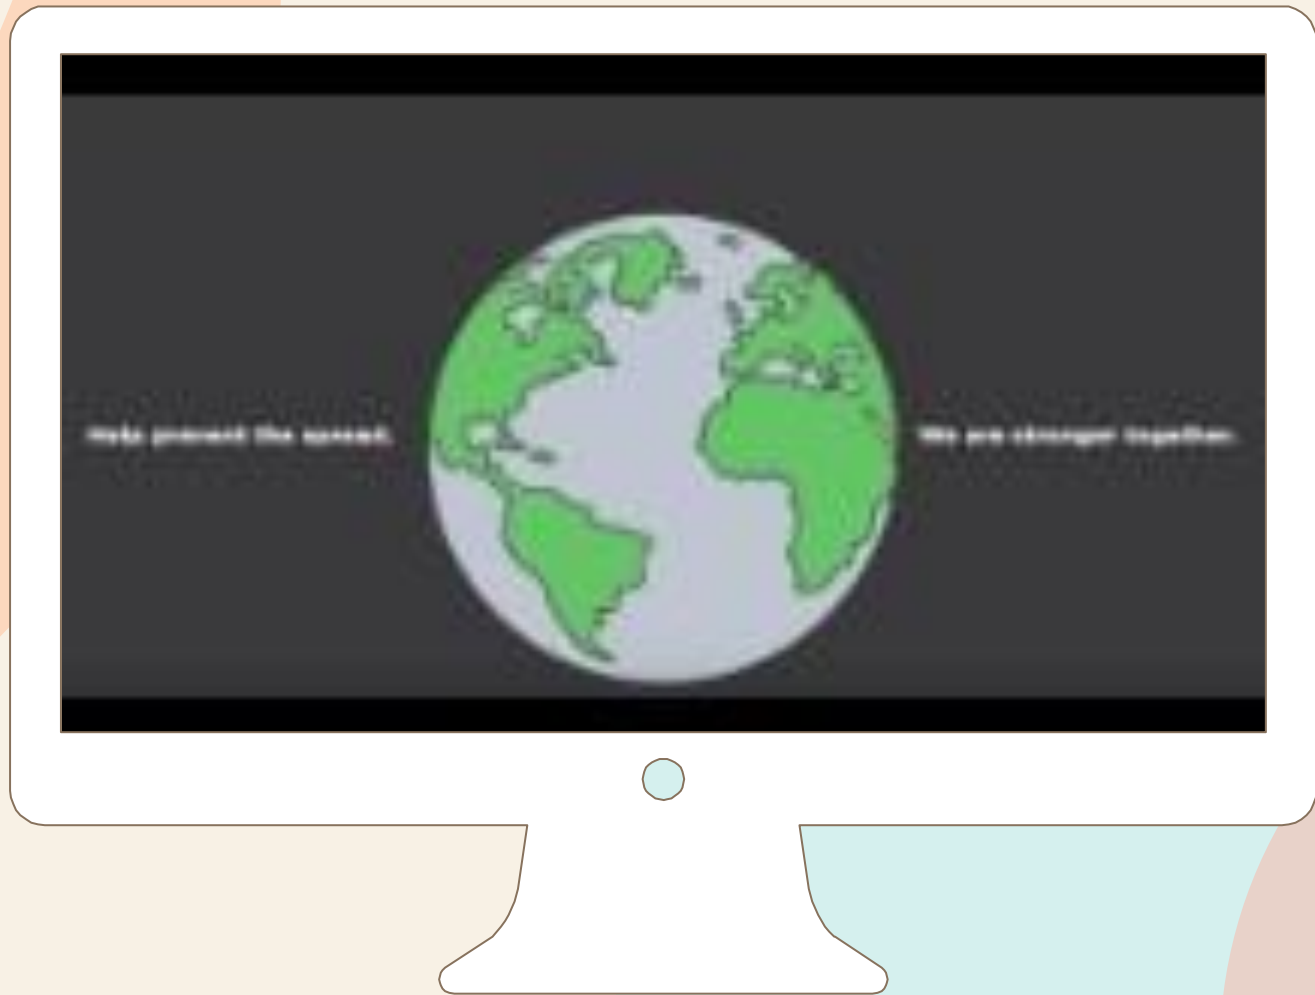

Problems presented

Causes

Consequences

How to avoid the virus?:

What is the video sharing with us?

What are the situations presented in the video?

Which other issues or aspects will you include in the video?

Would you change anything in people's actions due to the virus last year?

# Write a list

Let's think you are in 2019. You have a dream about what will happen with Covid-19 in 2020 and 2021. That is the reason why you are going to write a list (using first conditional) of possible causes and effects of the virus, because you will share it with your family since you felt it was real, as a warning.

You can also include in the list some actions and effects that could help to avoid some problems due to Covid-19.

01

## Think on your ideas

What happened with Covid-19? think on your experiences.

02

## Anything to be aware of?

Write some causes and consequences of Covid-19. You can also include some actions and their effects to avoid Covid-19

03

## Make it clear

Write your ideas using first conditional and put them on a list.

04

## No mistakes to correct?

Read again what you read and correct mistakes if you have.
